WEBINAR 2:
WHAT QUESTION TO ASK? WHAT SOURCES OF LAW TO USE?

This event will consider the question to be asked of the ICJ. The question must be able to achieve majority support in the UN General Assembly in order to get the case to the Court. It needs to be a question that the ICJ could answer positively with an outcome that would have significant impact on current policies practices. The sources of law to draw upon include international agreements, customary international law, general principles of law, judicial decisions including in domestic courts, and academic writings. This webinar will discuss all of the above.*
